Christchurch Wheelie Bins

I bin good with organics

By putting the right stuff in your green bin, you're making it possible for us to make locally-produced organic compost. If the wrong stuff goes in the green bin, the entire truckload might have to go to landfill.

 Collected weekly

I bin good with recycling

By putting the right stuff in your yellow bin, you're making it possible for us to recycle. If the wrong stuff goes in the yellow bin, the entire truckload might have to go to landfill instead of being recycled.

 Collected every two weeks

I bin good with rubbish

By putting the right stuff in your red bin you're keeping the other bins free of contaminants. If in doubt use the handy look-up tool in our app or check out our website.

Tips for bin good!

1. Bin lids shut flat

Bin lids need to be shut flat to ensure collection. Items placed next to or on top of bins will not be collected. The truck can't lift a bin if it's over-full, or empty a bin that's over-loaded.

2. Not too heavy (under 70kgs)

Make sure the bins are not too heavy and place it on the footpath or grass verge to make it easy for the trucks. Place them so the truck can reach them – at least a 1/2 metre clearance.

3. Put them out the night before

Have bins out by 6am on collection day and remember to bring them in after they're collected, by 11pm.

4. Report a missing bin

Report a missing bin within 24 hours of collection to avoid replacement costs. Phone 03 941 8999 or report online at ccc.govt.nz/mybin

5. Each bin needs to have an RFID tag

Call 03 941 8999 if your bin doesn't have a tag. Go to ccc.govt.nz/binstocktake to see where the tag is located.

6. Want to change your bin size?

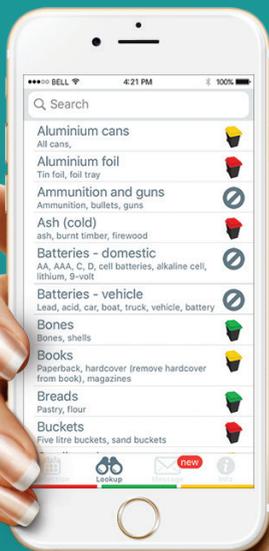

Want to change your green or yellow bin size? Call us on 03 941 8999 or apply online at ccc.govt.nz/mybins
