# Temporary Road Closure Score Sheet

For each line on the score sheet, enter the number of roads or areas that the closure affects in the **Count** column. The **Score** column shows the points per road or area multiplied by the number you entered. For example, if three Level 1 roads will be affected, enter 3 in the **Count** column on the **Level 1** line. The **Score** column automatically updates to 6 (2 points x 3 roads), and the **Total score** field automatically shows the sum of all the scores.
