Approval category

All pipe sizes are expressed in PE pipe outside diameter

EF 250 – electrofusion welding up to and including 250mm

EF 355 – electrofusion welding from 355mm up to and including 560mm

BF 250 – butt fusion welding up to and including 250mm

BF 355 – butt fusion welding from 355mm up to and including 560mm

Larger sizes are subject to special approval. Please use the separate application form on the CCC website.

Declaration

I, (Name of applicant):

Confirm that all the details set out in and/or attached to this application are complete and accurate in all respects.

Have read and am familiar with the CCC Construction Standard Specifications and other relevant CCC and AS/NZS standards and guidelines and have copies of the relevant documents at the worksite at all times.

If approved, agree to be bound by the requirements outlined in the 'Terms and Conditions for Christchurch City Council Approved Polyethylene (PE) Pipe Welders'.

Authorised PE Pipe Welder renewal of approval

PE Welding training

Note that approval will be granted for 2 years from the date of your PE welding training. You must submit an application for renewal (see separate application form) every 2 years to keep your approval active.

Date of last training:

Training provider:

Application checklist

(submit the following documentation along with your signed application form)

Copy of applicant's PE welding training certificate¹

Copy of applicant's PE welding test results²

Copy of applicant's confined spaces training certificate³

¹ PE Welding Training

CCC endorsed training providers:

- Le Hunt / Plastic Systems: www.pewelding.co.nz
- J Wall Ltd: www.jwalltraining.com
- WSP Environmental Training: www.nzetc.wsp.com

² PE welding test results

Provide test results of 8 conforming site welds for each category applied for, including peel /decohesion test results, which were performed under the supervision of a Council Approved Welder and which comply with the category of the application and have been undertaken by the applicant within the past 12 months. Also include details of the welding machine used. The conforming welding results submitted with the application must include couplers, tapping bands, tees and reducers of various sizes. Note that upon successful assessment the applicant will be approved up to the maximum size of test results submitted.

³ Confined Spaces Training

CCC endorsed confined spaces training providers:

- Safety 'n Action: www.safetynaction.co.nz
- Vertical Horizonz: www.verticalhorizonz.com/nz
- Elite Training: www.elitetraining.co.nz

Submit application to CCC:
