The NES includes regulations controlling soil disturbance, change of use, subdivision and removal/replacement of fuel storage systems on properties which have been used either now or in the past for a hazardous activity or industry (known as HAIL) that may have resulted in contamination of the soil.

Please answer the following questions to determine whether the NES applies to your proposal.

Is the application site listed on Environment Canterbury's Listed Land Use Register (LLUR)? <a href="http://www.llur.ecan.govt.nz">www.llur.ecan.govt.nz</a> . If YES, please include a copy of the LLUR statement with your application.	<input type="checkbox"/> Yes	<input type="checkbox"/> No
If the site is not listed on the LLUR, is an activity described on the Hazardous Substances and Industries List (HAIL) currently being undertaken on the piece of land to which this application relates, or is it more likely than not to have ever been undertaken on the land?  The HAIL list is available at: <a href="https://environment.govt.nz/publications/hazardous-activities-and-industries-list-hail/">https://environment.govt.nz/publications/hazardous-activities-and-industries-list-hail/</a>	<input type="checkbox"/> Yes	<input type="checkbox"/> No

Does the application involve removing or replacing a fuel storage system or parts of it?	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Does the application involve subdivision of the land?	<input type="checkbox"/> Yes	<input type="checkbox"/> No
<p>If the answer to any of the above activity questions is also YES, then the NES <u>will</u> apply.</p> <ul style="list-style-type: none"> <li>• Soil disturbance or removal exceeding the specified volumes requires resource consent.</li> <li>• Changing the land use or subdividing the land will require resource consent if the permitted activity requirements of the NES are not complied with. These include provision of a Preliminary Site Investigation carried out by a suitably qualified and experienced practitioner.</li> <li>• Removal or replacement of a fuel storage system will require consent if the permitted activity requirements of the NES are not complied with.</li> </ul>
