27962	Option B -One basket swing, one infant swing and one regular swing	Dinosaur	Plans look good. If any planting is done please use natives	Michele Dyer		
28107	Option B -One basket swing, one infant swing and one regular swing	Dinosaur	I think it would be good if the swings option b could have an extra regular swing added so its 1 basket. 1 infant and 2 regular. While I agree with the new slide for younger children, I believe the current slide should be retained for the older children to be able to use. The slide is still in good condition and my son loves this the most with the current playground. There is no reason why it should not be retained and moved into the new proposed area. It would also be great to see a drinking fountain installed.	Shontelle Codyre		
29849		Kiwi	Swing set - Option A - NIL, Option B - NIL (we already have the best swings) We love the 1930's equipment and it's fun education for kids!, it's certainly not end of usable lifespan - just maintenance required. Keep the existing traditional well made equipment our 3 yr old loves existing roundabout and the "best slide in the world", the existing swings are great and children like them as they give a decent high swing if wanted. Repaint existing and redo ground surface is all required. We and our kids prefer this traditional copper and steel slide better than any other in CHCH this includes all the new stuff at Scarborough Park, present "copper solid" slide surface is unbeatable and top quality. Put in your plastic fantastic for baby / toddlers if desired, but existing setup is just fine, don't lose present equipment!. We don't want every playground with bright plastic / fantastic. Appreciate what unique equipment - we are very lucky to still have it. Money is badly needed for other things in the city! Don't waste it here, minor freshup and couple rockers is all that is required.	D Alexander		
29985	Option B -One basket swing, one infant swing and one regular swing	Dinosaur	Great, I hope the existing equipment is being given away, recycled or sold on trade me - It would be terrible if it was just dumped/"stored" somewhere and left to rust.	Mark Penrice		
29922	Option A -Two infant swings and two regular swings	Dinosaur		Nathan Crabbe		
28640	Option A -Two infant swings and two regular swings	Kiwi		Aaron Tily		
28866	Option B -One basket swing, one infant swing and one regular swing	Kiwi	I am a ten year old girl. I used to play in the park when I was a toddler but now there is nothing to play on - it's very old fashioned. I look forward to the upgrade!			
28070	Option B -One basket swing, one infant swing and one regular swing	Kiwi	Please put in a rubbish bin by the car park. Often rubbish is left in the car park area.	Paul Kehoe

27947	Option A -Two infant swings and two regular swings	Kiwi	As a family we love the old fashioned layout of the Kings Park with heaps of room to play cricket, throw a frisbee, etc. We also like the old equipment such as the roundabout but it would be great if it wasn't half in the ditch, bringing the play area forward will be great to get away from the dampness but it would be good to still keep a good sized field area. A lot of playgrounds tend to be done up in a similar manner but it would be nice to keep some of the charm of the older style playground which the Sumner playground for example seems to have lost making it attractive to mainly the younger children only.	Mary-Jo Heine		
29949	Option B -One basket swing, one infant swing and one regular swing	Kiwi	Nice idea to renew park, however there are some potential major issues with the proposed location. We as a family are a long time regular [weekly] user of the park with kids and dog we really enjoy the current setup for the following reasons. Its sheltered from the easterly, is sunny and the play area and seat has great views out across the estuary to the mountains. It make the most of the fantastic views and sense of place. We were down at the park last week and reviewed the proposal onsite. The east wind was blowing as it does regularly particularly in summer. The proposed location is exposed to northeaster wind so is unpleasant for sitting. The playground and sitting area do not have a view out to the estuary or mountains as it is blocked in the foreground by the existing trees and further away by the houses and existing planting and we noticed the evening sun 4pm onwards was creating long shadows and shade where the seating is proposed. This is the time of family picnics or etc. We have attached an alternative location proposal that would be more sheltered, provide the views to the estuary and would receive the sun into the evening. We would welcome opportunity to discuss this proposal and would encourage the CCC to visit this site in the late afternoon when the wind invariably is blowing to see the actual affects including the blocked views and evening shade too. Considering this could be another 50 year asset we want to make sure the current intrinsic qualities that make the current park so fantastic as a place to visit are carefully considered and reestablished in the proposal.	Harvey Duncan	Occupation	Principal Architect
29848	Option A -Two infant swings and two regular swings	Dinosaur	We would like to see a soccer area at the south end where the existing slide and swings area is. Maybe 1/4 size pitch	Steve Adrienne McEwan		
29847	Option B -One basket swing, one infant swing and one regular swing	Dinosaur	1. Where it is at the back provides shelter from the prevailing bitter cold easterly wind & gets full sun - so do not move to north west part. 2. Why not move all new equipment to the existing area & leave large free open space for spontaneous ball games e.g. soccer, cricket in front closer to car park. 3. More rubbish bins needed. At least one needs to be by carparking area & one at picnic area. 4. This area seldom used. Been observing 2 x per day (dog walking / playing) morning & late afternoon for a year. Never seen families using it but have seen "hoons" suspicious characters in cars at carpark, drinking (leaving cans there etc) & perhaps drug exchanges?? as not a through road, leads to secluded area for illicit activities.	Shelley Campbell		
29840	Option B -One basket swing, one infant swing and one regular swing	Dinosaur	Replacing the roundabout currently there would also be good. There is one at Barrington playground which is really popular, and would be easier for kids to rotate than what is proposed (I still think we should have the option B swing set though. Also, we need more tables than currently existing or proposed. Also, some SIMPLE tracks through the bush at the edge would be fun. I don't mean wheelchair style, just areas where kids could go on an adventure without being stuck in the eye with a stray branch.	Jeff Long		
29750	Option B -One basket swing, one infant swing and one regular swing	Kiwi	I would prefer the existing swings, slide & roundabout to be kept with a pathway linking them to the car park. These are sturdy and will last for years.	Katrina Alexander

28567	Option B -One basket swing, one infant swing and one regular swing	Kiwi	The concept of a playing area for young children is too narrow. King Park is a sheltered and lovely place which faces due north with views over the estuary; it could be an ideal place for family gatherings and picnics. The addition of a barbecue area, a trampoline, and a lavatory would increase greatly its attractiveness for many users. I ask that the present concept be expanded to make the park attractive to a section of the community which is not confined to adults supervising small children.	Mary Glen Metcalf		
28121	Option B -One basket swing, one infant swing and one regular swing	Kiwi		Olivia Rodwell		
28064	Option B -One basket swing, one infant swing and one regular swing	Kiwi	Moving the play equipment forward will expose it to the easterly wind. I used to take my children to King Park when it was blowing a hard easterly as it was so much more sheltered than the Old School Reserve or McCormacks Bay. I do agree the play equipment needs updating but I prefer the current location.	Rebecca Robertson		
28031	Option B -One basket swing, one infant swing and one regular swing	Dinosaur		Louis Anderson		
28005	Option B -One basket swing, one infant swing and one regular swing	Kiwi		Bridget De Goldi		
27963	Option B -One basket swing, one infant swing and one regular swing	Kiwi	The space shuttle looks good as it caters for a range of ages. The more equipment for older kids the better as the park is more likely to be visited independently by older kids.	Christine McCormack		
27960	Option B -One basket swing, one infant swing and one regular swing	Kiwi	Please keep the roundabout we love it	Emily Watt		
27959	Option B -One basket swing, one infant swing and one regular swing		My kids & I love the park the way it is. It's super fun as it is now. We were just there last Saturday. The changes will just make it like every park in every new development, the one which is there now makes the neighbourhood seem older. I don't see anything particularly attractive about the new equipment.	Sarah Jenkins		
27958	Option A -Two infant swings and two regular swings	Dinosaur		Annabel Sandison		
27957	Option B -One basket swing,	Kiwi		Olivia Brown

	one infant swing and one regular swing					
27952	Option B -One basket swing, one infant swing and one regular swing	Kiwi	The existing picnic table may need to be upgraded, has signs of wear and tear. Having lived in the area for 2 years now more bins are needed closer to the car park and by the picnic bench, it may encourage people to put the rubbish in the bin instead of dumping on the ground in the car park. Will the existing see saws get a refresh? These also show a lot of wear and tear with flaking paint and rusting.	Louise Rice		
27950	Option B -One basket swing, one infant swing and one regular swing	Dinosaur		Kirsty McGowan		
27949	Option B -One basket swing, one infant swing and one regular swing	Kiwi		Genevieve Leech		
27948	Option B -One basket swing, one infant swing and one regular swing	Dinosaur	Couldn't the roundabout also be retained and moved across? And re the rockers, is there room for another one or a different one? Maybe the surfboard type, so a wider age range of primary school kids would use it? Hopefully a bin will also be installed in the new area. The plan states removal of the old bin, but no new one is mentioned in the new area. Overall, great to get an upgrade in any shape or form, but it still looks pretty sparse and more could be done than is currently proposed for minimal additional cost.	Nick Gee		
27946	Option B -One basket swing, one infant swing and one regular swing	Dinosaur	A basket ball hoop and half court like in Raouora Park would be amazing!!!! This would be great for the slightly older kids that like ball sports rather than playground equipment.	Nadia Marinelli

27937	Option B -One basket swing, one infant swing and one regular swing	Kiwi	<p>Hi there,</p> <p>We're excited that Kings Park is getting some love after raising a family here for 12 years and most of that time having Downer in the Park (which they left in a very average state). Pre earthquake Kings Park used to be hub for neighbourhood gatherings, back when you could play a game of soccer on the then flat ground (Downer left mounds and dips).</p> <p>We have a wide range of age groups using the park so it would be good to see equipment that caters for all.</p> <p>It would be worth noting that the carpark is currently used at night by various teens / young adults to park up drink, eat takeaways and leave their rubbish - they have over the past few years broken street signs, trees and used the park for toileting. Most mornings a local resident has to tidy up. Some lighting installed by CCC hasn't stemmed the problem. We also see freedom campers parked up there.</p> <p>Many thanks,</p> <p>Jo</p>	Jo Wynn-Williams	Local Resident	House Owner
27936	Option B -One basket swing, one infant swing and one regular swing	Kiwi		Jackie Foulkes		
29843	Option B -One basket swing, one infant swing and one regular swing	Kiwi	<p>More keen on connecting the carpark and the tennis club with better stairs on the right hand side as you look at the courts.</p> <p>Suggest a safer crossing being a raised brick cobble with zebra crossing markings linking Kingparks with the tennis courts where 40 to 60 kids every Saturday morning in Spring and Summer cross and enjoy this recreation area before and after their lessons... plus the rest of the users and kids during the rest of the week.</p>	Will Parker	BDO	BDO
29787	Option B -One basket swing, one infant swing and one regular swing	Dinosaur	<p>Thank you for doing upgrade we've waited a long time.</p> <p>██████████ age 8</p>	██████████ ██████████		
28030	Option B -One basket swing, one infant swing and one regular swing	Dinosaur	I am really looking forward to this new park	Wilbur Anderson		
27951	Option B -One basket swing, one infant swing and one regular swing	Dinosaur	I love that this is going to be upgraded!! And especially catering for younger kids and older kids. It's important to have a point of difference with the equipment, to other parks in the area, so I'm stoked with what has been selected. Especially the swing option and the rocket spinner. Great stuff!!	Carolyn Wright		
27965	Option B -One basket swing, one infant swing	Dinosaur	Great	Dawn Dart

	and one regular swing					
29245	Option B -One basket swing, one infant swing and one regular swing	Dinosaur		Hayley Stewart		
28101	Option B -One basket swing, one infant swing and one regular swing	Kiwi		Arthur McGregor		
27938	Option A -Two infant swings and two regular swings	Dinosaur	Basket swings are undoubtedly cool. But having two normal swings instead of just one is important for couples, as well as friends, and sets of parents and children. My ideal would be one Basket, one infant, and two regular swings.	Joshua Wharton		
28577	Option B -One basket swing, one infant swing and one regular swing	Kiwi	If you can, get two regular swings with option 2.	Liam Speechlay
