

# Land Drainage Recovery Programme

Reducing the risk of flooding throughout Christchurch City

## Dudley Creek/St Albans Creek Work Notice

27 February 2018

Ex-Tropical Cyclone Gita and other rain events have affected the timing of our work in your area. It's now not possible for us to safely open Stapletons Road from Averill Street to Dudley Street by Wednesday 28 February 2018 as we'd hoped. You'll see our large orange signs onsite now have an extended date of 31 March 2018. We are hoping to be able to reopen before then, subject to weather, but wanted you to understand things have been delayed.

### Information for residents:

- We will chip seal Stapletons Road and then rearrange the fencing from Wednesday 28 February 2017 to Saturday 3 March.
- Stapletons Road will **remain closed to traffic** from Averill Street to Dudley Street.
- We will open up a **pedestrian lane** from Monday 5 March 2017 to assist with children getting to and from school.
- Pedestrians may have to cross the road to complete their journey.
- Stapletons Road will be open to traffic **on or before 31 March 2018** with a temporary seal.
- The final reinstatement of the road will be done by Christchurch City Council. You will get a notice about this nearer the time.
