South East Music Venues	<p><i>Are you able to please advise what the best way is to get the local music venues within the South East area engaged?</i></p> <p><i>How could we get staff to hold a stakeholder workshop with them to help inform the draft framework?</i></p>	<p>Staff have advised that engagement on a strategic framework for the South East neighbourhoods will occur in two phases:</p> <ul style="list-style-type: none"> -Our initial engagement will include conversations with a few select business owners, developers, and residents to test the concepts in the framework. These will be one-on-one conversations. -The second phase will commence in December 2022/early 2023 and will include wider engagement through a variety of formats, including workshops. This is when we will connect in with music venues in the area. <p>Music venues have been included in our draft engagement plan. We are still working on our stakeholders list for early engagement so we don't have anything ready to share yet.</p>
