

Christchurch City Council Shirley-Papanui Community Board Electing 5 Board Members

Ian TINKLER

My principal place of residence is in the Shirley-Papanui Community Board area.

I am standing in Shirley Papanui because I want to put something back in to the communities that make up this area.

A city is more than the centre. It is important to redevelop the amenities near the CBD however it is just as important to have good facilities in the communities.

While Christchurch renews there will be changes and opportunities to make the place better.

I am a person who listens to what the people say. I understand that there are limited funds with the public purse and not everything can be achieved. I want to make the area a better place to live

The needs of communities from Kainga to Bealey Ave differ. It is important that the right decisions are made to benefit all and not only those with loud voices and large chequebooks.
