

# Christchurch City Council

## Electing the Mayor

---

### Kyle CHAPMAN

The Resistance Party

*My principal place of residence is in the Christchurch City Council area.*

*I am also standing for the Hagley/Ferrymead Community Board.*

It is time to make your vote count. Every vote for me makes the Government and the media pay attention.

Christchurch has had many false promises, and they keep on going. If you want to be heard now is the time to do it.

I will address housing in Christchurch, affordability of rents, more council housing and working out how to provide more housing through pushing the need to bring labour here and housing for them, and working on speeding up the building process.

The current system in Christchurch has too much bureaucracy. It's time for a change. I won't bow down to the people who try to dominate politics.
