

Christchurch City Council

Electing the Mayor

Robin MCCARTHY

Independent

My principal place of residence is in the Christchurch City Council area.

The council needs Mayoral candidates who are leaders. It needs people who have stood up to the mark, made submissions on various issues and fronted up to speak to those submissions before either the full council or its committees. That is what I have done. It has given me a full understanding of council processes. My sole motive has been to effect change and make things better. It needs people who have a track record in communicating with all sectors of society. That is why I am standing for the Mayoralty. I was born in South Canterbury 57 years ago, spent 14 years living overseas, have a long history of establishing businesses in the tourism/aviation/transport sector, with an in-depth knowledge of the Local Government Act, Resource Management Act, Employment Relations Act and the Transport Act. I have an avid interest in what makes the world tick.
