

Christchurch City Council

Burwood-Pegasus Ward

Electing 2 Councillors

Robyn NUTHALL

The People's Choice - Labour

My principal place of residence is in the Burwood-Pegasus Ward area.

Burwood Pegasus can have a bright future by working together on making our vision reality. We need our swimming pools back, economic revitalisation, no graffiti, improved housing, good roads. My experience at local government negotiations and nine years' work to improve councils in the UK will help us to get what we need.

I have come home from a journey that has taken me from South New Brighton Primary, Linwood Intermediate and both our universities, the UK, Wellington and back. I am qualified in science, teaching and management and have been a journalist, a marketer and a business architect.

Christchurch voters want to see fresh, clear, unequivocal leadership with strong financial and strategic skills, driving recovery with relentless energy. We need a council which functions on respect, strong ethics, and openness - an approach that my great great grandmother, the first female Christchurch City Councillor, Ada Wells, would agree with.
