

Christchurch City Council

Electing the Mayor

Tubby HANSEN

Economic Euthenics

My principal place of residence is in the Christchurch City Council area.

I am also standing for the Spreydon/Heathcote Community Board and Canterbury District Health Board.

I will be a take it easy, completely, obnoxious and sneaky Mayor, working between 10am - 6pm, accepting no food

or drink.

We need a Christchurch Metropolitan Police force. funded by Government, no transfers between forces, whose terms of reference will be to get an arrest of the people who are getting into candidates homes with drugs, bugs and using a cancer machine; people are not safe in their own homes, minding their own business.

I was born in 1945, the year of the rooster, so I have plenty to crow about. I have a certificate of drawing and design which will help with the rebuild. If old stock cement is used the new buildings will crumble. Cement should be expiry dated.

John Key is certain to be re-elected Prime Minister next year, while Labour faces a landslide defeat, my truck has been sabotaged again.
