

## Street Renewal Programme

This programme is largely driven by the deep channel (old style) renewal requirements but also includes renewal of road surface, footpaths and berms.

The streets renewal programme included in the Draft 2009-19 LTCCP is planned to be allocated to the following work.

The first three years' budgets of the Programme have been fully allocated while the subsequent years are subject to continuing detailed planning.

The majority of the budget for any given street is aligned to the year on deliver being the latest year indicated below. Prior years indicated are for planning, design and consultation phases.

	2009/10	2010/11	2011/12	2012/13	2013/14	2014/15
