

# Sumner Village Centre

## Suburban Centres Programme

*This poster has a selection of main ideas and goals shared by people who attended recent focus group and community drop in sessions.*

A community-led master plan is being developed for Sumner Village Centre.

Focus group and community drop-in sessions:

- Discussed the work that has already been done by the community and built on these ideas.
- Confirmed the key issues facing Sumner Village Centre.
- Heard any new information.
- Checked which were the top priorities and if any have changed over time.
