

Colombo Street from Hereford Street to St Asaph Street

Overview Works Notice

What: Colombo Street upgrade construction. This will include stormwater, drainage, new kerb, footpath, landscaping, traffic signals and road resurfacing.

Where: Colombo Street, in two sections between Hereford and Lichfield streets and between Tuam and St Asaph streets. This will continue on from work currently being carried out on Colombo Street between Lichfield and Tuam streets.

When: Monday 18 May to end of October 2015

- Services Identification – 11 to 18 May
- Tuam to St Asaph – 22 May to end of July
- Cashel to Lichfield – end of May to end of August
- Hereford Street to Cashel Street – September to November
- Colombo Street surfacing to end of October

These zones are subject to change to ensure we work with adjoining developments and other contractors.

Business Continuity

Fulton Hogan understand that businesses need to continue to operate and be accessible to their customers. We will make efforts to support businesses, maintain vehicle and pedestrian access and minimise delays. Night works may be undertaken in critical areas.

Unknown underground existing services such as power, telecommunications, gas, water and fiber-optic can cause significant delays to works while moves, changes and redesign options are agreed. While this is often out of our control, we will ensure you are kept informed.

There will be ongoing communication with adjoining contractors/projects to ensure coordination of works where possible. We will endeavour to work with them to minimise disruption to their projects and the surrounding businesses. This may cause changes to the timing of works, this will be communicated to you.

Traffic impacts:

- There will be changes to the road layout during the work. Please be on the lookout for detour marked signage and electronic message boards.
- There will be traffic delays associated with this work, please allow extra travel time for your journey.
- Where possible vehicle and pedestrian access to businesses will be maintained throughout the work.
- Throughout the work there will be changes to on-street parking. There will be no on-street parking within the work sites.

General impacts:

- Work will begin week of 11 May to set up traffic management and do underground service investigations.
- Our standard work hours are Monday to Friday between the hours of 7.00am - 6.00pm. There may also be some weekend and night work involved.

During this and other work we encourage drivers to keep traffic moving.

- Please drive to the conditions
- Look out for changes and signage
- Please allow extra time for your journey
- Avoid this area and take another route
- Please take extra care around pedestrians and cyclists

Thank you for your patience during this work.

Further information about the project will be distributed throughout the life of the project. If you would like to sign up to receive regular email updates please email: rebuildinfo@fultonhogan.com with 'Accessible City' in the subject line.
