817	Graham Alexander		support the plan	<p>I have lived in Dallington most of my life 40 years and I believe This is a Positive step and a great idea.</p> <p>I would like to see Dallington Red Zone turned into a sports area from a water Park for Kayaking Rowing to MBT Trails for those who can't do the hills.</p>	Thank you for your feedback. We suggest that you contact Regenerate Christchurch with your ideas for the red zone.
816	Luba Roth		have some concerns	<p>Totally support the well thought through plans.</p> <p>The fitness trail will be well used by the seniors in our community.</p>	Thank you for your feedback.
815	Liona Stanicich		have some concerns	<p>Thanks for looking to add to the facilities at Burwood Park. It is exciting to see more available at this already busy park. Personally I feel #4, 5&6 items are not a good choice. I have seen these elsewhere, where they were not serviced and were stiff and unable to be used efficiently. This would potentially then be unusable. I feel money would be more well spent on new toilets, they are very old & grotty, a full sized court w 2 hoops, with a sail over some seating. The #1, 2&3 items are great thanks. As a fitness instructor I love that we have options for people to keep being active! Thanks</p>	Thank you for your feedback. The equipment will be maintained by our maintenance team. Should you find the equipment needs servicing, please contact the Call centre on 941-8999. A mixture of equipment has been selected to cater to a range of fitness levels and different motions. Upgrades to the existing facilities fall outside the scope of this project.
755	Don Bowman		support the plan		Thank you for your feedback.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
746	Noel Woods		support the plan		Thank you for your feedback.
744	Tina Mahony		support the plan		Thank you for your feedback.
743	Diane Mahony		support the plan		Thank you for your feedback.
742	S.R. and A Thorn		support the plan	Looks like a good idea.	Thank you for your feedback.
738	Jo Wood				Thank you for your feedback.
737	Joshua Earl Cropp		support the plan	Yes if the park goes forward. Will there be drinking fountains? Other than this we fully support the plan	Thank you for your feedback. We plan (subject to approval) to install a drinking fountain at Burwood Park south in mid-2018 /early 2019.
734	M and P Clifford		support the plan	Is there any seating nearby? May be good for walking groups/joggers.	Thank you for your feedback. There is existing seating located near the playground.
730	Cathy and Gillis Maclean		support the plan	We think this is wonderful. They have this sort of thing overseas. Would be wonderful in time to have some to be put looking out over the river----such a lovely setting. Bribie Island in Queensland in Aussie have these set ups all along the beach front. Simply wonderful.	Thank you for your feedback.
728	Charlie Claridge		support the plan	Fantastic idea. I believe it will be a great asset to the area and of great use to not only the sports teams that practice there but also the local residents too.	Thank you for your feedback.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
722	Sandra Petherick		support the plan	It will be a great asset to have in our area. Have used the Hagley Park equipment and it was good.	Thank you for your feedback.
519	Sarah McCallum		support the plan	It would be good to see more static pieces that could be used by fitness groups such as seen at Hagley Park or even at Shirley Boys. How long do the motion pieces really last? And who is paying for maintenance? Static pieces don't require the same level of care. A walking track/paved path around the park needs to be looked into, this is of immense value for fitness as the park can be circumnavigated in all weather and is a handy fitness measure "twice round the park today"	Thank you for your feedback. We have worked with the local community group that is providing the funding for the equipment. Amongst other things, we have taken into consideration a need for a mixture of equipment and keeping within the budget allowed. The motion pieces have a lifespan of 25 years. Council will be maintaining the equipment. The walking track around the park falls outside the scope of this project.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
518	Sarah McCallum	Dallington Community Cottage Trust	support the plan	<p>The Dallington Community Cottage Trust wholeheartedly support this plan and thank the recreation staff for their work in creating our legacy project for the wider eastern communities. We have the following comments.</p> <p>We believe it would be of benefit to add one more fitness station to maximise our contribution. We can contribute the necessary funds to cover an extra fitness station. We are happy to leave the selection of this extra fitness station to staff's advice.</p> <p>We have concerns that placing the fitness stations too close to the playground. Making the equipment too accessible for children concerns us as there are moving parts that could cause health and safety issues. The equipment is designed for youth and adults.</p> <p>While outside this project criteria, we would like to signal that consideration to be given to the addition of a walking trail being added to add community values to Burwood Park. We see immense value in a perimeter fitness trail utilising the residential red zone boundary land. This could easily include a ring circuit of Dallington suburb and also a ring circuit around Horse Shoe Lake that would provide community value to Westhaven/</p>	<p>Thank you for your feedback. The number of pieces of equipment have been determined based on available funding. The placement of the equipment complies with the necessary NZ playground standards (NZS5828:2015). The walking track around the park falls outside the scope of this project. The project team have been in contact to discuss an additional piece of equipment and this has been included in the revised plan for approval.</p>

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
				Burwood. We are very happy to feed into this process at a later date.	

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
511	Susan Bashford		support the plan	<p>I am very pleased that a fitness trail will be installed at Burwood Park and will make a point of using it.</p> <p>I am not familiar with all of the equipment but would like at least one of the exercise machines to exercise leg muscles similar to stair climbing. As Christchurch is flat and it is a long way to go to the Port Hills for regular hill climbing exercise it would be great if we can get similar exercise on these machines.</p> <p>I note that some of the equipment has illustrations on how to use - this is excellent. Could all of the equipment also have instructions or ideas on use please? Not everyone goes to a gym and is familiar with exercise equipment use.</p>	The static pieces of equipment will have boxing around them. This is suitable to be used as a step up. All of the equipment will include information panels on how to use them.
499	Barry Cox		support the plan	Good community & Council initiative - promoting use of park and fitness	Thank you for your feedback.
498	James Smith		support the plan	Great idea, better than a primary school ruining a great park	Thank you for your feedback.
497	Toni-Ann & Kathy None		support the plan	Great idea.	Thank you for your feedback.
496	Desiree Ellevy		support the plan	I think it is a great idea and we would use it.	Thank you for your feedback.
495	Lola Harding		support the plan	Great idea.	Thank you for your feedback.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
494	Susanne Bischoff		support the plan	Great idea! Please make as sure as possible that no one can "take" the equipment "home". It seems pretty valuable (especially # 4, 5 & 6) Thank you!	Thank you for your feedback. All pieces of equipment will be fixed in place to ensure that they are safe for use and will be difficult to be removed.
436	Naoko Tani		support the plan		Thank you for your feedback.
427	Diane Percy		support the plan	1 Another exercise station should be added. 2 Move it further away from the children's playground because it would be dangerous to have little children amongst moving equipment. It is an adult's utility. 3 A walking trail should be added to include the outdoor gym into a walking circuit. PLEASE NOTE: I don't have an email address so I have permission to use the one provided and any replies will be given to me.	Thank you for your feedback. The number of pieces of equipment have been determined based on available funding. Placement of the equipment complies with the necessary NZ playground standards (NZS5828:2015). The walking track around the park falls outside the scope of this project.
424	Priscilla Nicolson		support the plan		Thank you for your feedback.
416	Callum Thwaites		have some concerns	Just concerned at the cost of the movement equipment, they appear to be poor value for money when compared to the cost of the static items. From experience the static item are more durable and easier to maintain and I assume harder to vandalize. Perhaps less	Thank you for your feedback. We have worked with the local community group that is providing the funding for the equipment. Amongst other things, we have taken into consideration a need for a

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
				movement items would allow for more static items.	mixture of equipment and keeping within the budget allowed. The motion pieces have a lifespan of 25 years. All pieces of equipment will be fixed in place to ensure that they are safe for use and will be difficult to be removed.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
415	Rachel Thwaites		have some concerns	<p>While I support the implementation of a fitness park I have issues with the number and cost of the movement equipment vs static equipment that is proposed. Static machines are cheaper and represent better value for money instead of movement machines and there is less ongoing maintenance involved with the static equipment. Multiple static machines will provide a greater benefit to the community and utilise a wider range of muscles and skill set that can be used by all ages and body shapes.</p> <p>Fixed movement machines are not adjustable and can limit the size of people using them e.g. reaching the shoulder press bar. Having tried several around the country there is always something wrong/damaged with them. If people are not use to exercise, fixed movement machines can appear intimidating. I strongly believe that these are not good value for the community.</p> <p>For the cost of one fixed movement machine - approx. 10 static stations can be provided with little ongoing maintenance. I would strongly recommended a number of balance static stations are also introduced. These are fun and provide a wider range of benefits that ACC and many physios can attest too.</p>	<p>Thank you for your feedback. We have worked with the local community group that is providing the funding for the equipment. Amongst other things, we have taken into consideration a need for a mixture of equipment and keeping within the budget allowed. The motion pieces have a lifespan of 25 years. All of the equipment will include information panels on how to use them which should help people gain confidence in using them. The walking track around the park falls outside the scope of this project.</p>

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
				<p>I would also like to see the implementation of a dirt running track around the perimeter of Burwood park with distance markers.</p> <p>Finally I notice that there is no mention of instructional signs to safely demonstrate movement required.</p> <p>Thank you for my submission.</p>	

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
405	Yvette & James Cundy		support the plan		Thank you for your feedback.
404	Mr & Mrs M Flawn		support the plan	Great!	Thank you for your feedback.
403	Jeanette & David Lawrence		support the plan	Excellent idea - just what is needed to encourage fitness and use of the park	Thank you for your feedback.
402	Bruce & Heather McKay		support the plan	Looks great.	Thank you for your feedback.
401	Geoffrey & Joanne Kidd		support the plan		Thank you for your feedback.
389	Dave Evans		support the plan	Do it. Good for the community and low cost.	Thank you for your feedback.
377	Brenda Needham		support the plan	Hi, my husband and I are members of the Burwood Park Tennis Club, alongside which this equipment will be placed. Think it's a great idea Well done	Thank you for your feedback.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
358	Bronwyn Larsen	Community & Public Health (A division of the Canterbury District Health Board)	support the plan	<p>General Comments</p> <p>8. The CDHB strongly supports installation of the Burwood proposed fitness trail, such equipment has the ability to improve the social connectedness and physical wellbeing of the local community as is it a community amenity which promotes a healthy lifestyle.</p> <p>9. The fitness trail will enable local residents to participate in physical activity, some of whom may not be able to use commercial fitness centres for a variety of reasons. The CDHB supports the development of more inclusive, accessible facilities.</p> <p>10. The CDHB recommends the use of a universal design approach to the proposed fitness trail. This will ensure that the fitness equipment is accessible and easily used by the widest range of people without the need for special adaptations.</p> <p>11. The CDHB supports the proposal and has a number of recommendations for consideration which would further improve health outcomes for the community.</p>	<p>Thank you for your feedback. The moving equipment will be accessible via the existing pathway. There is existing seating located near the playground.</p> <p>All of the equipment will include information panels on how to use them which should help people gain confidence in using them. This concept has been designed with CPTED principles in mind.</p> <p>We plan (subject to approval) to install a drinking fountain and bike stands at Burwood Park south in mid-2018 /early 2019. The request for mobility parking has been forwarded to our traffic operations team for investigation.</p>

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
				<p>Specific comments</p> <p>12. The CDHB recommends that pathways enable easy and safe access for pedestrians, especially those with mobility needs or impaired vision. It is not clear from the concept plan how pathways will be designed to ensure they are fully accessible.</p> <p>13. The CDHB recommends that the final designs ensure that there is level or ramp access and a path to all areas of the fitness trail. The CDHB notes that the plan shows there is no footpath from the road and users may be expected to traverse across the grass/through trees to access the equipment. This would result in the equipment being inaccessible for users with any form of limited mobility. Such users may be those with limited lower limb function, who wish to access the equipment to maintain or even improve their upper limb strength, or users who are returning to exercise after injury.</p> <p>14. The CDHB recommends that surrounding seating be installed to ensure that carers and parents can adequately supervise users who may need assistance to travel to or use the equipment. Such</p>	

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
				<p>users may have an intellectual or sight impairment, but wish to exercise and can do so safely with supervision.</p> <p>15. The concept plan does not include details as to mobility parking. The CDHB recommends that one mobility parking space is provided to allow those with disabilities to participate. An easy-to-read map (e.g. large print, location indicators) that shows the location of mobility parking spaces is also necessary.</p> <p>16. The CDHB recommends installation of bicycle stands to encourage the use of active transport to get to and from the fitness trail. Security should be considered carefully as to placement of bicycle stands. The CDHB recommends they are placed in a prominent location with frequent foot traffic and easily seen by those using the fitness equipment.</p> <p>17. The CDHB recommends installation of accessible drinking fountains which are prominent and well sign-posted near the equipment.</p> <p>18. The CDHB recommends that adequate signposting is installed, as the concept design suggests that equipment 1, 2 and 3</p>	

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
				<p>is some distance from equipment 4, 5 and 6 and may be obstructed from line of sight by trees and the playground.</p> <p>19. The CDHB recommends that a CPTED assessment is undertaken to ensure the safety of users via adequate lighting and other measures.</p> <p>Conclusion</p> <p>20. Thank you for the opportunity to submit on the Burwood Park (south), Burwood Proposed Fitness Trail.</p>	

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
350	Judith Field		have some concerns	My concerns would be rubbish - vandals Would be good to have some seating	Thank you for your feedback. There is an existing rubbish bin near the toilet block and seating located near the playground. Any vandalism will be covered by our maintenance team. If you see any, please use the snap, send, solve app or call 941 8999.
349	Betty Vink		support the plan	I think it sounds great! No concerns	Thank you for your feedback.
348	Michelle Waters		support the plan		Thank you for your feedback.
335	Candice & Jason Dalziel		support the plan		Thank you for your feedback.
330	David and Marilyn Campbell		support the plan	Although we may not use the fitness trail we think it is a great idea for the community and we fully support it.	Thank you for your feedback.
329	Mar & Phil Roulston		support the plan	We think this is a great idea and a real asset to Burwood Park. The only concern we have is vandalism and it is our hope that this fitness trail will be treated with respect. Thank you to those who have made this project possible.	Thank you for your feedback. Any vandalism will be covered by our maintenance team. If you see any, please use the snap, send, solve app or call 941 8999.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
328	Ian Foster		support the plan	Think it's a great idea. I just hope each unit is built strong enough as not to be damaged by vandals.	Thank you for your feedback. Any vandalism will be covered by our maintenance team. If you see any, please use the snap, send, solve app or call 941 8999.
327	Valerie & Alan Percy		support the plan	Excellent idea - go for it. We have grandchildren who would use the equipment every weekend and in school holidays	Thank you for your feedback.
326	Mat Millar		support the plan		Thank you for your feedback.
325	Wayne & Kathryn Ferris		support the plan	Absolutely, thrilled as "Dallington" is almost a forgotten suburb, need some upgrades and care for the residents to enjoy as such a superb location. Let's get Dallington "moving again"	Thank you for your feedback.
320	Fraser Blakemore		support the plan	A great idea ... Our family will use these as part of our weekly fitness. A water drinking fountain would benefit all uses of the park and upgraded rubbish bins (Recycling etc.) as often the current bins are unable to handle the volume of the sports users. Thank you for your consideration.	Thank you for your feedback. If you see the rubbish bins overflowing, please use the snap, send, solve app or call 941-8999 to arrange for the maintenance team to empty them. We plan (subject to approval) to install a drinking fountain at Burwood Park south in mid-2018 /early 2019.
307	Margaret Ashby		support the plan		Thank you for your feedback.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
305	Grant & Margaret Mitchell		support the plan	Good idea.	Thank you for your feedback.
304	Mrs Kay Clark		support the plan	<p>I think fitness trail will be good for the use of sporting groups of Burwood park and recreational uses to.</p> <p>Will the fitness equipment have weight restrictions for people Adults and children able to use them? There are a lot of very heavy and big people about weight wise and size will the equipment 4, 5, 6 be suitable to use it.</p> <p>I think the layout where the equipment is going to go is a good place.</p>	Thank you for your feedback. All the equipment is built for general use (from primary aged children to the elderly) and is designed for to withstand the weight of an adult.
303	L Wallis		support the plan		Thank you for your feedback.
302	Sally Ross		support the plan	Great idea.	Thank you for your feedback.
301	R T & S Timmings		support the plan		Thank you for your feedback.
300	Alison Wells		support the plan		Thank you for your feedback.
299	Claire Ingram		support the plan		Thank you for your feedback.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
298	Matt Kennedy		support the plan	Great idea! We also think a tar seal track around the perimeter of the park would be beneficial to it. It would allow the fitness activities to be spread out a bit more, allow some jogging between activities and also give people, who don't want to use the fitness facilities, a place to walk, push a stroller etc. If it could be extended around the northern section too, even better.	Thank you for your feedback. The perimeter path falls outside the scope of this project.
282	Jan & Robb Donaldson		support the plan	At last the East is now getting what we deserve. We have waited a long time	Thank you for your feedback.
281	Mark Raine		have some concerns	But is it really needed and money well spent? Other things are probably more important and people who exercise will exercise anyway	Thank you for your feedback. This project is a community led initiative and is funded by the Dallington Cottage Community Trust and as such we believe there is already demand for a fitness trail.
280	M. Hawke		support the plan	Great idea - will be a fabulous addition to Burwood Park	Thank you for your feedback.
279	Margaret & Stephen Jensen		support the plan	Brilliant idea. By the way "isn't that New Brighton Road on map - not Burwood Road"	Thank you for your feedback. The administration error has been rectified online.
278	Judy Heslop		support the plan	Just get on with it! It's a good idea. Every park should have them (fitness trails)!	Thank you for your feedback.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
277	Julie Tanner		support the plan	Looks like great activities	Thank you for your feedback.
276	Conrad Michelson		have some concerns	<p>Thanks for the opportunity to make a paper submission on this proposal. I'm sure these points have already been addressed but here goes!!</p> <p>Sportspeople and others committed to maintaining their "fitness" are already enrolled at a gym and therefore may be reluctant to work out on a rather exposed outdoor set up. It would be a pity if the proposed trail languished through the lack of interest and use and simply became the target for vandalism. (Has a survey been conducted as to the use made of the Hagley Park facility?)</p> <p>Had the upgraded playground area and apparatus sited on Burwood Park North (adjacent to Broomfield Tce) been incorporated into this plan then, I believe, steady attendance and future development of this proposed site might be assured. A worthy enough idea, with certain reservations about it!</p> <p>Certainly Hagley has the numbers using and going through it, Burwood doesn't.</p>	<p>Thank you for your feedback. All pieces of equipment will be fixed in place to ensure that they are safe for use and will be difficult to be removed. Any vandalism will be covered by our maintenance team. If you see any, please use the snap, send, solve app or call 941-8999. A survey has not been conducted at Hagley Park. This project is a community led initiative and is funded by the Dallington Cottage Community Trust and as such we believe there is already demand for a fitness trail. A redesign or relocation of the playground at Burwood Park North is outside the scope of this project.</p>

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
275	Justine Page		have some concerns	<p>My children who regularly use the park suggest:</p> <ol style="list-style-type: none"> 1) Upgrading the basketball court <ul style="list-style-type: none"> - Full court - with new baskets and hoops - this court is very well used. 2) Update the playground equipment - more things for older kids? 3) Connect a running track through the red-zone all the way to the river - so people either start at the playground or end there 4) More rubbish bins - always overflowing 	<p>Thank you for your feedback. An upgrade to the basketball court, playground and installing a track are outside the scope of this project. If you see the rubbish bins overflowing, please use the snap, send, solve app or call 941-8999 to arrange for the maintenance team to empty them.</p>

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
273	Robert J Smith		support the plan	<p>An excellent idea. If adding any more in future - see diagram attached * A platform for box jump at various heights for different fitness levels - see diagram attached * Cargo net or wall From experience 4, 5, 6 would be underutilised machines get rarely used and fall into disrepair. But obstacles are used far more and less up keep.</p>	<p>Thank you for your feedback. A cargo net would limit the number of users. When selecting the proposed equipment, we have taken into consideration a need for a mixture of equipment and keeping within the budget allowed. Council will maintain the equipment.</p>

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
272	Gilbert & Beryl Crotty		have some concerns	<p>Parking in that area along Creswell Ave is already a problem, especially during events such as sport.</p> <p>Any other activity is bound to increase the problem. For example, parents and children exiting cars when vehicles are parked on both sides of the road. My wife and I would like to see the grass expanse between road and park turned into parking, diagonal or parallel, giving moving traffic more room to safely negotiate Creswell Ave.</p> <p>That stretch of grass is not use for recreation anyway, and is used only to gain access to the park. Buses also have a job especially weekends.</p>	Thank you for your feedback. Your request to convert the berm to parking falls outside the scope of this project.
271	Sandra Smith JP		have some concerns	<p>The Fitness Trail is an awesome proposal for Burwood Park in concept.</p> <p>It needs to cater for adults of all ages - 18+ through to 70+ years.</p> <p>I think that either the chin-up bars or parallel bars need to be replaced with a fitness station for core strength that older people can use.</p>	Thank you for your feedback. All the equipment is built for general use (from primary aged children to the elderly) and includes equipment that will active the core. All of the equipment will include information panels on how to use them which should help people gain confidence in using them and will show the target areas.
270	M Welbeloved		support the plan	Only concern is hope it wouldn't be vandalised.	Thank you for your feedback. All pieces of equipment will be fixed in place to ensure that

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
					they are safe for use and will be difficult to be removed. Any vandalism will be covered by our maintenance team. If you see any, please use the snap, send, solve app or call 941-8999.
269	Julie Beaton		support the plan	As long as public can use it and not have all the sports team taking over the equipment.	Thank you for your feedback. The fitness trail is available for use by the public and it is expected that use of it will be shared by people in the community.
252	Vanessa Forsyth		support the plan		Thank you for your feedback.
250	Selwyn Eagle		do not support the plan	My concern is with the way the funds were distributed to an organisation that has very little contact with the community. This idea was originally one of the Dallington Residents, and seems to have been hijacked by Linda Stewart. Another question who looks after the ongoing maintenance?	Thank you for your feedback. The funding of the equipment has been donated by the Dallington Cottage Community Trust, of which Linda Stewart is a member. Council will be responsible for maintaining the equipment.
241	Toni Burnside		support the plan	Fabulous idea - the more things for children and families to do in the local area the better.	Thank you for your feedback.
240	B & C Mills		support the plan		Thank you for your feedback.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
239	Windsor Care Retirement Village	Windsor Care Retirement Village	support the plan		Thank you for your feedback.
238	Faye Broughton		support the plan	Looks great. No excuses now for not exercising. Cheers.	Thank you for your feedback.
237	Lucy Mackie		have some concerns	Great idea! I'm just worried that Cresswell Ave might need a pedestrian crossing?	Thank you for your feedback. A pedestrian crossing is outside the scope of this project.
236	Carole Peterson		support the plan	Looks great. I am sure it will get lots of use	Thank you for your feedback.
235	Robin Allen		have some concerns	As long as this new pace won't be taken over by commercial fitness trainers	Thank you for your feedback.
234	Roger & Val Allen		support the plan	Please note the road between the parks (north & south) is New Brighton Road and not Burwood Road as you have on your plan!	Thank you for your feedback. The administration error has been rectified online.
233	M & K Johnston		support the plan	A great asset for Burwood south park!!	Thank you for your feedback.
232	John Adams		support the plan		Thank you for your feedback.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
231	Neil Haigh		have some concerns	Security of people and the equipment. Vandalism and policing of equipment and people. Bring more of it on, the east side lacking lots of things for our youth to do.	Thank you for your feedback. All of the equipment will include information panels on how to use them which should help people gain confidence in using them. All pieces of equipment will be fixed in place to ensure that they are safe for use and will be difficult to be removed. Any vandalism will be covered by our maintenance team. If you see any, please use the snap, send, solve app or call 941-8999.
230	T & M Coulter		have some concerns	When did the road through Burwood Park become Burwood Road?? We wonder how much the equipment will be used once the novelty has worn off. Will it be vandal-proof? - If that is possible.	Thank you for your feedback. The administration error has been rectified online. All pieces of equipment will be fixed in place to ensure that they are safe for use and will be difficult to be removed. Any vandalism will be covered by our maintenance team. If you see any, please use the snap, send, solve app or call 941-8999.
228	Jo-Anne Takenaka		support the plan	I think this is a great idea. Something new and positive for our area. Promoting health and fitness is important.	Thank you for your feedback.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
227	Mrs Judy McPhillips		support the plan	What a fabulous resource to have in our neighbourhood. Little Burwood Park is well used by sports groups e.g. Rugby and a women's fitness group especially so will be a great asset.	Thank you for your feedback.
226	Graeme & Jeanette Silvester		support the plan		Thank you for your feedback.
225	Jill & Bernie O'Brien		support the plan	Great - 3 adults happy about this!	Thank you for your feedback.
224	Martin & Francie Boyce		support the plan		Thank you for your feedback.
223	Charmaine Holden		support the plan		Thank you for your feedback.
222	J A Tomlinson			Looks really good, should bring more people to the area.	Thank you for your feedback.
221	T M & P Newman		support the plan		Thank you for your feedback.
220	Diana Plesors		support the plan	A very good idea and local initiative. Trouble is, as a current non user, but if I wanted to, how does one use bars 1, 2 and 3. A pictorial as for 4, 5 and 6 would be helpful and so one does not hurt oneself.	Thank you for your feedback. All of the equipment will include information panels on how to use them which should help people gain confidence in using them.
219	M. Clutterbuck		have some concerns	Parking and speed around the park.	Thank you for your feedback. If you have concerns about parking, you can call our call centre on 941-8999 and request

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
					a visit from the enforcement team. In regards to speeding, please contact the Police so that it can be monitored.
218	Craig & Dianne Hubert		support the plan	Why not include an all-weather walking, running pathway around the park as well.	Thank you for your feedback. A pathway falls outside the scope of this project.
217	M. Southorn		support the plan	There is not much parking available and also Cresswell Ave is becoming increasingly busy. Could more parks be provided on the wide grassed berm along there?	Thank you for your feedback. Your request to convert the berm to parking falls outside the scope of this project.
216	M Henson		support the plan	I like the idea very much. Just hope they are safe for all to use.	Thank you for your feedback. All fitness stations are designed and made to meet the NZ playground standards (NZS5828:2015).
215	Denise Kutia		support the plan	Excellent idea, park needs more activities for children. Weekends with sports their children can be more occupied, I take my grandchildren there and more activity other than swing and slide will be more exciting for them.	Thank you for your feedback.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
214	J Sinclair		support the plan	I fully endorse proposal and also of the opinion that consideration should be given to erecting of a low wall or fence to prevent basket balls and footballs rolling on to the roadway. Often being chased by small children and also small children evading their parent and running on to the roadway. As there is usually a number of cars parked on the side of the park children running between these cars are just an accident waiting to happen. I understand this has previously been asked for.	Thank you for your feedback. Your request for a small wall or fence falls outside the scope of this project.
213	Julie Wiltshire		support the plan	Fantastic Plan	Thank you for your feedback.
212	William Le Breton		support the plan		Thank you for your feedback.
211	Miriam Barrett		support the plan		Thank you for your feedback.
210	Garth Dale		have some concerns	What arrangements are proposed to limit vandalism of the equipment - especially 4, 5 & 6?	Thank you for your feedback. All pieces of equipment will be fixed in place to ensure that they are safe for use and will be difficult to be removed. Any vandalism will be covered by our maintenance team. If you see any, please use the snap, send, solve app or call 941-8999.

209	Glenn Bongartz		support the plan	What a great idea. Anything that helps the community stay healthy and fit helps all of New Zealand.	Thank you for your feedback.
208	Gina Bayliss		support the plan		Thank you for your feedback.
195	Robert Jongerius		support the plan	This is great project for the area. Get people out to use the park road. Make them healthier and fitter	Thank you for your feedback.
170	Rachel Crawford		support the plan		Thank you for your feedback.
165	Lindsay Walton		support the plan		Thank you for your feedback.
158	Julia O'Brien		support the plan		Thank you for your feedback.
152	Alan Woods		support the plan		Thank you for your feedback.
151	Kim McGregor		support the plan	What an excellent idea. This is a great location for a fitness trail. Excellent to see community partnerships working so well with Council to deliver such a great resource for the community.	Thank you for your feedback.
146	Janet & Steve Wells		support the plan	What a great idea.	Thank you for your feedback.
138	Geoff & Katrina Mann		support the plan	We thing it would be a great idea. Better than just walking around the park. Should lose some weight and get fitter & healthier.	Thank you for your feedback.

129	Jan Miller		I support the plan	Yes, we support this Plan. We hope that a Child size version will be installed at same time. Maybe Schools in the area would be interested in using it as part of their Fitness Programs'.	Thank you for your feedback. All the equipment is built for general use (from primary aged children to the elderly).
127	Amanda Clifford	Amanda Clifford	I support the plan		Thank you for your feedback.
124	Jayne Appelbe		I support the plan		Thank you for your feedback.
122	Sue Williams		I have some concerns	I think that the idea of the fitness trail is great. Thank you to the council and the Dallington Community Cottage Trust for the funding and the concept. My only concern is that the equipment must be available to be used for all in the community at all times. To be clear, I wouldn't like to think it was "hi-jacked" or used in a form of "squatters' rights" by groups such as the rugby club. I have seen problems with this, e.g., the reluctance of the rugby club to share the grounds in the past. It isn't just this particular club - the instance I read about with the proposed BBQ facilities at Avonhead Park being objected to because the local football club sometimes uses the area to meet. The park is a public space, this would be a	Thank you for your feedback. The fitness trail is available for use by the public and it is expected that use of it will be shared by people in the community.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
				terrific asset - to be shared and not "owned" more by one group over others. Perhaps it just needs to be politely made clear to the sports groups that might already use the park.	
121	Maree Murdoch		I support the plan	This is going to be a great asset to our community. Safe, well used space.	Thank you for your feedback.
109	Carol Dean		I support the plan	What a great idea!! Especially near the playground - means parents can make use of it while still keeping an eye on their kids at the playground.	Thank you for your feedback.
107	Angie Falck		I support the plan	We are members at Burwood park Tennis Club and use the park facilities regularly and think the equipment would be put to good use by all that attend the park for rugby, touch and other sports training.	Thank you for your feedback.
106	Karen Finlay		I support the plan	Having fitness equipment available free to all to use, is an amazing asset for the east side of Chch. It encourages more people to keep fit and achieve health goals. It also encourages children as they see others using this equipment.	Thank you for your feedback.
105	Susan Adams		I have some concerns	Some of these items look like they could require maintenance, would it not be better to have more things without moving parts that would only require painting etc., rather than items that could be broken?	Thank you for your feedback. The equipment has a lifespan of 25 years and will be maintained by Council.
104	Rae Mills		I support the plan	Great stuff	Thank you for your feedback.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
103	Faye Mather		I support the plan		Thank you for your feedback.
102	Megan Waddington		I support the plan		Thank you for your feedback.
99	Kris Tynan		I have some concerns	Excellent idea but I would like to know what equipment you are using. Some of these stations are rubbish! And actually a little dangerous. Please provide links to what manufacturers you are using.	Thank you for your feedback. All fitness stations are designed and made to meet the NZ playground standards (NZS5828:2015). We will be sourcing the equipment from the Playground Centre. https://www.playgroundcentre.com/
94	Tango Wineti		I have some concerns	It would be a good idea to add more equipment like; Monkey bars, Run through tyres, Climbing wall with climbing ropes Balance beams Platform with 2 heights to do step ups and squats onto the platform. It's important that it can be utilised from various groups and have adequate lighting at each station including the running track so it can be used when it's dark. Will the track be sealed so that both walkers/runners are separated with the cyclists utilising the track.	Thank you for your feedback. Monkey bars are located in the playground. The remaining suggestions are outside the scope of this project.

ID	Name	Name of organisation	I / We	Comments - please be as specific as possible to help us understand your views	Project Team comments
93	Natalie Perzylo		I support the plan		Thank you for your feedback.
92	Michael Sullivan		I have some concerns	I'd love to see this and also a similar set up at Carlton Corner, Hagley park so we may utilise it for PT in the park on Saturday mornings where we have 30-150 people attend each week https://www.facebook.com/PtInThePark/ I'd love to talk about the opportunity to use this in Hagley Park and in Burwood Park. Thanks.	Thank you for your feedback. An upgrade to the equipment at Carlton Mill corner is outside the scope of this project. We have referred your request to use the new fitness trail to the Coastal Burwood recreation team for consideration.
88	Sarah Smith		I support the plan	I believe that the creation of the fitness trail is important for the community, it is a great way to encourage younger generations and the whole community to be more active, I myself would visit regularly to take full advantage of the facilities and would encourage as many people as I can to do the same.	Thank you for your feedback.
