Banks Peninsula community collection points

There are a number of types of collection points. The main ones are:

Recycling skip/trailer/wheelie bin for household recycling

Rubbish skip/wheelie bin for household waste

How the service works

- For residents **not** on a kerbside collection route, there are community collection points where domestic quantities of bagged rubbish and recycling can be dropped off
- The amount of rubbish and/or recycling dropped off by a resident **should not exceed the amount that can be placed in the kerbside wheelie bins**. As a guide, this amount is two rubbish bags per week and three recycling bags per week
- Properties **not** on a kerbside collection route pay a **part** Waste Minimisation Charge on their rates

How to use the community collection points

Colour of skip/wheelie bin	Description of waste	Quantity that can be dropped off each fortnight
	Household recycling	240 litres (3 bags per week)
	Household rubbish	140 litres (2 bags per week)
	Household recycling	240 litres (3 bags per week)

Ensure you use the collection points correctly:

- Place only domestic quantities of rubbish and recycling in the skips/wheelie bins/trailer
- **Only put acceptable material in the skips/wheelie bins/trailer.** Check the information in this brochure and at the community collection point
- Take green waste, large items, large quantities and commercial waste to a transfer station for recycling or disposal. Locations of transfer stations and EcoDrops are on the back page

Have you got more questions? Find more info on our website loveyourrubbish.co.nz or call us on either **0800 800 169** or **(03) 941 8999**.

Waste contractors work with Council to reduce contamination. If contamination is sighted investigations may be undertaken, in accordance with the CCC Waste Management Bylaw 2009.

Read the Waste Management Bylaw 2009 for the full list of terms and conditions around use of the community collection points.
